

Narcis B.

Full-Stack Web Developer

About

My name is Narcis and I'm a full-stack developer who relocated recently to The Netherlands. I'm looking for new challenges in my career therefore I'm currently looking for hire.

I'm well versed in the art of web development. I can manage to do front-end and back-end with relative ease from the point of conceptualization to the point of delivery.

Experience

Liberty Multiplayer, Developer

May 2022 - Present

A small project related to a game server for Grand Theft Auto.

- UI rework (more dynamic and optimized approach for angular application)
- Helped with moving the backend to TypeScript
- Develop a new building process (using Rollup & SWC)
- Tech Stack: TypeScript, Angular

InversifyJS, Maintainer

Mar 2021 - Present

A powerful and lightweight inversion of control container for JavaScript & Node.js apps powered by TypeScript.

- Helped develop and maintain the library
- Helped with the documentation
- Helped resolve Issues and Pull Requests

RYSE Multiplayer, Developer

Jun 2020 - May 2022

I've used the following tech stack to build up a small project on the side to gain more knowledge:

- TypeScript
- Inversify (Dependency Injection)
- Prisma (Database)
- NodeJS
- ExpressJS
- GitHub Actions

Certificates

Web Administrator, Formacion Universitaria, Spain

Issued Aug 2020

At the end of this course I obtained a certificate which represented my accomplishment in learning the following:

- Web Design (HTML, CSS)
- Page Administration
- JavaScript & PHP

Online Version
